Courses required for the General Business degree are offered in many different locations. The tables below by no means represent an exhaustive list of locations where each course is available. If there is a place you are interested in going that is not listed, contact the ILO Office to see what courses might be available there.

### When is the best time to study abroad?

Students are eligible to study abroad as soon as the summer after their freshman year. Many General Business students choose to study abroad once they have been admitted to COBE and are eligible to take upper division courses. However, it is also possible to go sooner and focus taking on disciplinary lens courses, electives and some of the COBE requirement courses.

### Course Finder

A full list of all pre-approved courses can be found on the ILO website: <http://international.boisestate.edu/academic-information/coursefinder/>. Be aware that not every course is offered during every term, so you should consult both the program website and the Course Finder when planning your courses. It is also important to meet with your academic advisor, to ensure that you are staying on track with regard to your academic plan.

### Approval Process

It is possible to take courses that are not listed on the Course Finder. If you would like a course to count as an equivalent to a specific Boise State course, you must take a course description or syllabus to the chair of the appropriate academic department. If the course is not something Boise State offers (i.e., Italian History), the course will simply count as an elective.
